

A DYNAMIC HR/WHS SOFTWARE SOLUTION FOR YOUR BUSINESS

DISCOVER WHY OVER 11,000 BUSINESSES EMPLOY ENABLEHR

HRsuccess
success through people.

enableHR....

- ✓ Saves you time and money by streamlining HR/WHS processes from recruitment, employee management through to terminations.
- ✓ Helps you manage risk and ensure compliance with over 200 workflows, checklists, guide, policies, contracts and letters included – all backed by the experts at FCB Workplace Law
- ✓ It's simple, flexible and cloud-based meaning you have access to the information you need 24/7
- ✓ Is a cost-effective, solution designed with the needs of small to medium sized businesses in mind (pricing is \$7.50 per worker per month)

enableHR makes my life easier.

LIFECYCLE MANAGEMENT

Easy management solutions for each stage of the employment lifecycle, recruitment through termination for employees, contractors and volunteers.

- o WHS hazard and incident management
- o Dashboard and drill down reporting

Client feedback

“ We needed a HR system that could bring all our staff records into a central repository that we could access from anywhere 24 hours a day, 7 days a week. We also needed a system that would help us to follow processes and procedures and after HR Success demonstrated enableHR to us, we knew it fitted what we needed.

HR Success implemented enableHR for Qalchek in May 2014 and frankly, we love it! It helps us to ensure we manage our staff consistent with legally compliant processes and brings all our staff related records together in one place. Being web based, we can access enableHR anywhere, anytime and it has proven to be an outstanding business tool that actively helps us manage a large part of our business, our people.

The other amazing aspect is that enableHR is quite inexpensive for such a comprehensive HR solution that contains templates and information which are updated regularly. As far as we are concerned, purchasing enableHR was really a no-brainer and we've never looked back.

*Melisa and David Loizou,
Qalcheck Directors*
