

WORKPLACE HEALTH AND SAFETY

enableHR's comprehensive health and safety management system protects your workforce. It includes interactive workflows, procedures and policies that you can tailor to your business, making it easy to plan, manage, track and report your health and safety data.

WHY YOU NEED IT

PLAN SAFETY

A uniquely proactive approach and methodology to get on the front foot when it comes to safety in the workplace.

Our step-by-step checklists and templates ensure you have the most up-to-date and best practice policies, plans, procedures and guidelines.

MANAGE SAFETY

Handle hazards, incidents, risk and injuries calmly and competently. Resolve issues and facilitate return to work with confidence.

ENGAGE ON SAFETY

Encourage your employees to take the initiative when it comes to personal safety and that of their peers. Innovative and comprehensive induction checklists help employees, contractors and volunteers increase vigilance and awareness.

WHAT'S INCLUDED?

ENABLE SELF SERVICE

Workers can submit hazards, incidents and accidents from their mobile device, including supporting photos and videos. Workers can also access company registers, policies and documents relating to their safety.

INCIDENT AND ACCIDENT MANAGEMENT

Workers can access company policies, templates and forms from our centralised platform.

TEMPLATE POLICIES AND GUIDES

Our library of best practice policies, forms, reports, registers and tools will ensure your investigations and consultations are effective and compliant.

INCIDENT AND ACCIDENT MANAGEMENT

Centralise incident and accident records across your business and implement standardised management processes for easier auditing and reporting.

MANAGING ILL AND INJURED WORKERS

Simplify and consolidate the management of ill and injured workers, and their return to the workforce.

ALERTS AND REMINDERS

Notifications provide real-time actionable alerts to make sure your workers are safe and your health and safety systems are up-to-date.
